Our Interactive Solutions

We create immersive gaming environments that combine projection, digital content, and physical activity.

Interactive Floor A11001

Every step turns play into a game. The floor responds to movement and encourages active participation.

Interactive Wall A11002

The wall responds directly to touch, launching new challenges, bringing children together, and motivating them to keep playing.

Interactive Slide A11003

Combines sliding with animations and special effects to turn every ride into an exciting adventure.

Interactive Shooting Gallery A11004

A dynamic skill-based game with varied missions and multiplayer competition.

Interactive Swing A11005

With every movement, the swing transports players into a new world of exciting adventures.

Interactive Animated Drawings A11006

Technology that brings drawings directly into an interactive world on the wall.

Interactive Dance Games A11007

Dance-based play that combines physical activity with shared fun with friends.

Interactive Sandbox A11008

An innovative combination of sensory development and creative sand play.

Interactive Coloring A11010

A creative play where children color their favorite characters and then interact with them.

first year included

Additional services
extended support and licensing plans

Interactive Trampoline A11011

Dynamic active play where players earn points by jumping.

Interactive Climbing Wall A11012

A climbing experience with a wide selection of routes and game-based challenges.

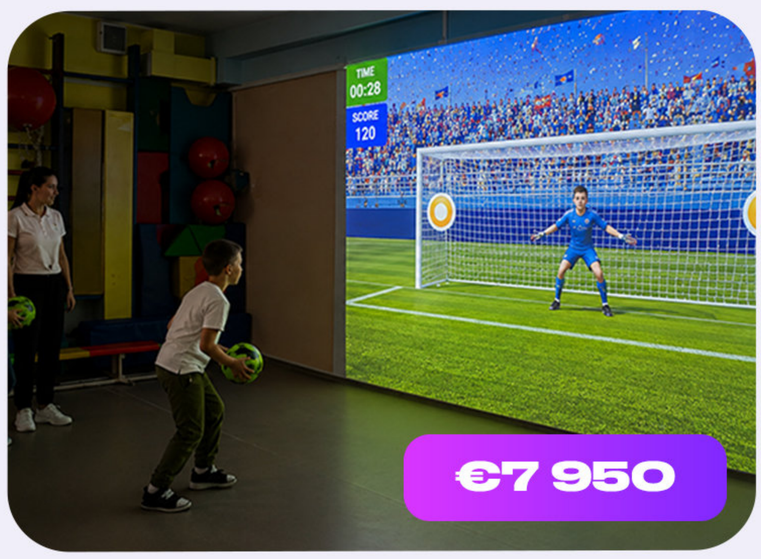

Interactive Celebration Table A11013

A multimedia table that responds to touch, movement, and objects placed on its surface.

Interactive Celebration Zone A11014

An interactive space for parties and special events.

Interactive Sports Wall A11015

Exciting sports scenarios and favorite games in a themed environment.

Interactive Stage A11016

A large-format space for visual shows, theatrical performances, ceremonies, and events.

Interactive Welcome Projection A11017

A modern way to highlight and present your brand.

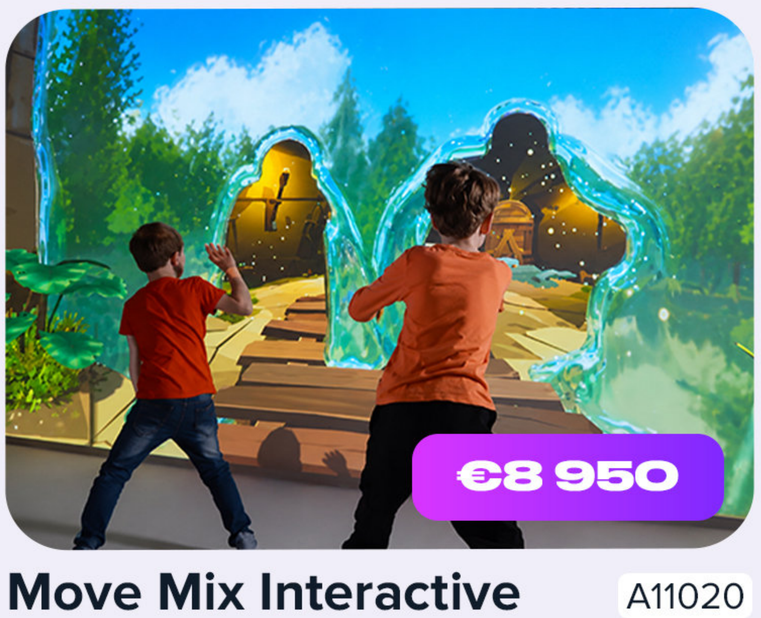

Interactive Soccer A11018

A popular game reimagined with instant motion response directly on the floor.

Interactive Hopscotch A11019

A classic game in a new format, enhanced with interactive effects.

Move Mix Interactive Games A11020

One space for a variety of active games, including movement, jumping, and interactive challenges.

360° Projection A11021

Full immersion through projections that surround the space.

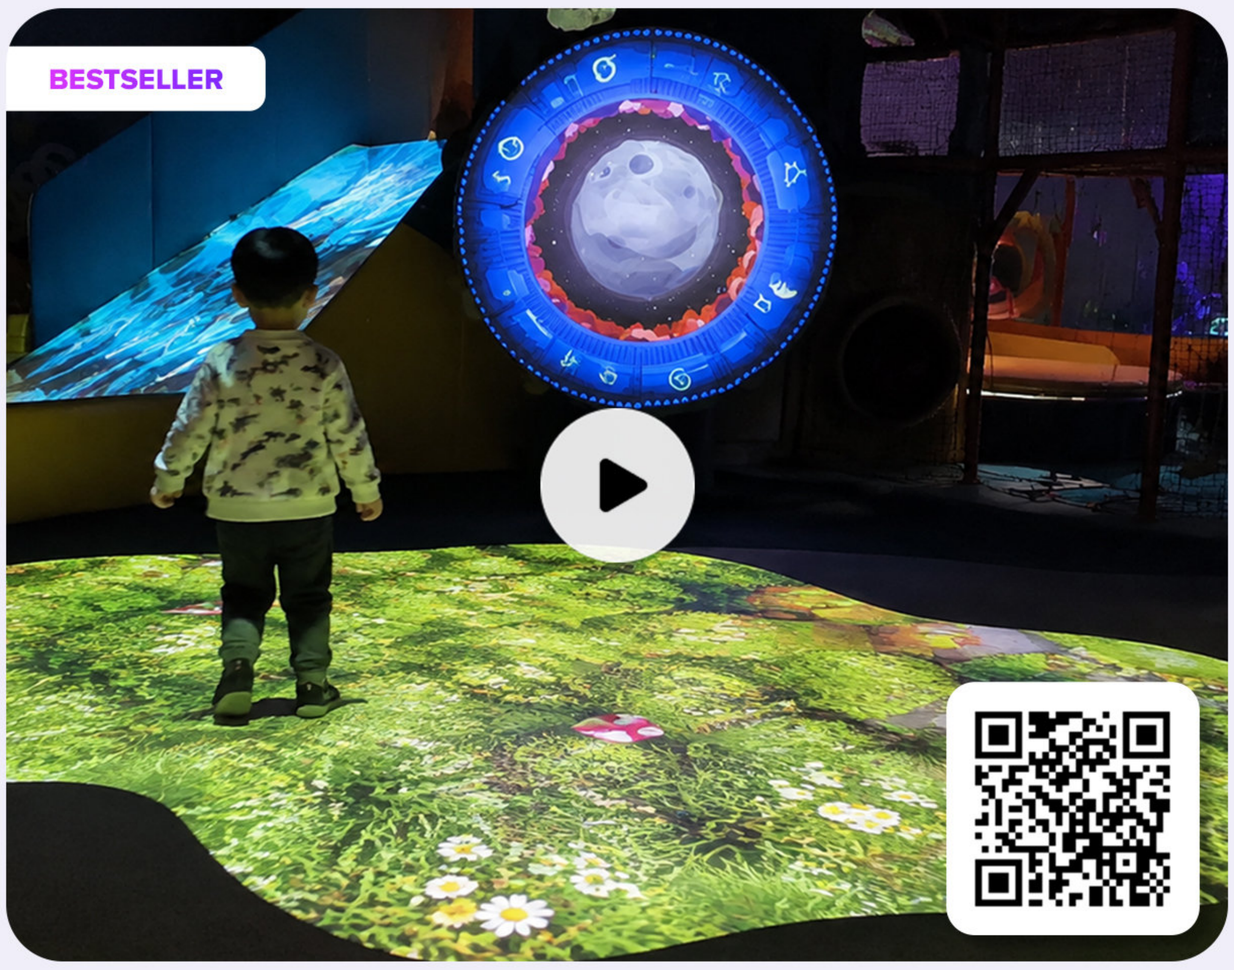

INTERACTIVE FLOOR

A11001

Interactive Floor Equipment Set

One attraction, countless ways to play. Children step into a world of interactive games where every movement matters. A variety of scenarios supports both solo and group play, keeping every session active and engaging.

INTERACTIVE ANIMATED DRAWINGS

A11006

Interactive Animated Drawings Equipment Set

This equipment set transfers children’s drawings into a digital world in real time. Kids color characters, then the system scans and displays them on a large screen, where their creations become a part of colorful animated stories. Using oversized digital brushes, young creators can interact with their own artwork and trigger additional animations.

About Happy Jump

We provide comprehensive interactive solutions — from compact spaces and small venues to large-scale projects and major entertainment centers. Our team supports you at every stage, from the initial concept through the final launch: space planning and equipment selection, delivery, installation, customization, and long-term support.

- Direct manufacturer
- Ready-to-use solutions
- Continuously expanding game library
- Remote technical support
- Technical documentation and certification
- Custom design and development

HOW WE WORK

1 SPACE ANALYSIS

We assess the available area, location, and your expectations for the entertainment zone.

2 SOLUTION SELECTION

We prepare a customized equipment configuration tailored to the available space.

3 COMPLETE PROPOSAL

We provide pricing, technical specifications, and implementation options.

WE CREATE A SPACE YOUR CUSTOMERS WILL WANT TO RETURN TO.
